

Guidance for Identifying Economically Disadvantaged Areas

The following guidance is provided to assist applicants seeking to be licensed as a medical cannabis grower or processor under the Code of Maryland Regulations (COMAR) 10.62.

Economically Disadvantaged Areas

You can use this guidance to determine whether an address is within an “economically disadvantaged area” as defined by the Commission. An economically disadvantaged area (EDA) means “a geographic area, identified by the Commission, which meets three or more of the following criteria:

- (a) A median income that is 80 percent or less of the average median household income in the State;
- (b) An unemployment rate that is at least 150 percent of the unemployment rate in the State;
- (c) A health uninsured rate that is at least 150 percent of the health uninsured rate in the State;
- (d) A food stamp or Supplemental Nutrition Assistance Plan (SNAP) rate that is at least 150 percent of the food stamp or Supplemental Nutrition Assistance Rate in the State; and
- (e) A poverty rate that is at least 150 percent of the poverty rate in the State.” COMAR 10.62.01.01(B)(13).

The Commission evaluated each socioeconomic metric using the American Community Survey (ACS), which is an ongoing, nationwide survey conducted by the U.S. Census Bureau. ACS data is available in annual, 3-year, and 5-year periods. The Commission used the 2012-2016 5-year ACS data to determine the geographic areas that qualify as an EDA.

Analyzing the 2012-2016 ACS socioeconomic data, the Commission identified sixty-two (62) zip code tabulation areas (ZCTAs) that qualify as EDAs. The ZCTA is a generalized areal representation of the United States Postal Service (U.S.P.S.) ZIP Code service areas developed by the U.S. Census Bureau. **In most instances the ZCTA code is the same as the U.S.P.S. ZIP Code for an area; however, a ZCTA code may be different from a U.S.P.S. Zip Code. An applicant should confirm their ZCTA(s) using the instructions included on Page 2 of this guidance.**

Please see the U.S. Census Bureau website at: <https://www.census.gov/geo/reference/zctas.html> for additional information).

A map of the qualifying ZCTAs may be viewed [here](#). The following sixty-two (62) ZCTAs were identified by the Commission as EDAs:
